ROULETTE EQUIPMENT

ROULETTE WHEEL is the most elegant example of precision engineering, incorporating **REINFORCED CORIAN** ball-track, a highly stable and durable material maintaining accuracy in varying temperatures and levels of humidity.

We offer immediate shipment from our warehouse, with a single-zero traditional separator ring, built-in optical sensors, classic mahogany veneer and Gloss Gold metal surface finish. **LIFETIME WARRANTY** on bearing rotation mechanism.

ROULETTE DISPLAY

offers great looking animated graphics for winning number results & statistics. Winning number recognition from roulette wheel sensors is fast & accurate every spin. Roulette display is available in double sided 27 or 32 inch diagonal, matte black support pole frame and includes all player favorite graphical features, including hot & cold numbers.

MULTIPLIER bonus numbers offer roulette players higher payouts up-to 500 to 1 on straight-up bets. No need to adjust layout design or adjust roulette procedures.

STATISTICS software is available for historic analytics.

CHIPSTAR™ chip sorting machine quickly & accurately sorts up to 10 color/cash chips. A single dealer is able to operate roulette table improving operational efficiency & requiring minimum servicing.

It is equipped with an unequalled Chip-Pre-Separator providing a full chipping rate even at high chip loads. Safe access to last remaining chips & no exposed moving parts: **CEE APPROVED**

GRAND CRYSTAL 2 ELECTRONIC ROULETTE

MODULAR

MULTI-GAME

GRAND CRYSTAL² electronic auto-roulette offers sleek futuristic design, space saving footprint and modular cabinet configurations efficiently utilizing slot floor space to generate maximum revenue. Attractive and innovative hardware, 4K 3D-graphics, HiFi audio coupled with excellent ergonomic design meet the most demanding player expectations.

Every choice and function that player presses is followed by interactive led signal - submersing players into the game of electronic roulette. Each player position is ergonomically designed and fitted with a wide, tilted touchscreen for maximum player comfort. The auto-wheel is visible from all gaming positions, engaging roulette players as never before! Super-large toppers with gorgeous virtual dealers attract players with advanced game statistics, winning numbers and trends.

DIAMOND MIX unique feature offers roulette players to win up-to **1,000 TO 1** on straight up bets or alternative choice of paytables.

FEATURES:

- Ergonomic cabinet tilted screen design
- Intuitive 3D graphics & premium accoustics
- Attractive topper signage graphics
- Quick Start and show/hide bet features
- Drinks holders & phone chargers

SECURITY TOOLS PRECISION INSTRUMENTS

GS PREMIUM roulette wheel level sets new standards for balancing roulette wheels. Easy-to-use and handle, it incorporates a sophisticated, high precision spirit level and a three-point support to allow exact installation on the wheel balltrack, making regular adjustment of roulette wheels easy & precise at the casino floor.

- Precise wheel leveling by balltrack
- Spring loaded arm extension
- Compatible with standard size wheels of all manufacturers
- Simple to use and time-saving
- Precision designed, made in Austria

Price: 749^{EUR}

Price: 499^{EUR}

GS UTILITY wheel level offers same precision accuracy with simpler design and cost efficiency. The easy-to-use level offers wider extension angle compatible with **wider balltrack diameters**.

Austrian-made design and manufactured precision uses the same a three-point support to allow exact installation on the wheel balltrack.

BALL VERIFIER

Enhance casino security on roulette tables with instant detection of metals inside roulette balls. Distinguish between both types of metal possibly hidden within. A perfect instrument on the gaming floor to build player confidence and resolve disputes.

Price: 269^{EUR}

POKER EQUIPMENT

CARD SHUFFLERS

DECKMATE² is players' b e s t friend at the poker table! Removing shuffling interruptions to gameplay, improving players' safety from common cheating techniques, such as shuffle tracking, card swapping or dealer collusion.

Shuffle time of just 22 seconds, built-in timer to "call the clock" is an option to limit time & remove frustration of waiting for slow decisions.

POKER ROOM

INSTANT DECK DELIVERY

i-DEAL PLUSTM

EXTRA SECURITY

i-DEAL PLUSTM shuffle machine offers maximum security on dealer-dealt poker tables. Latest technology in a sleek, low profile design safeguards from deck manipulation techniques and incorrect deck composition.

Random & independent shuffle protects casino players from manipulated deck shuffling, and when a missing, extra or swapped card is detected, the game is stopped instantly.

ONE2SIXTM OTS single-deck & multi-deck continuous shuffler combines user-friendliness and state-of-the-art technology to create a premium shuffler capable of handling from one to six decks of playing cards.

OTS can be used for virtually all poker and multi-deck card games delivering perfect shuffle every time.

ONE2SIX OTSTM

BACCARAT CARDS SMALL INDEX

COST EFFICIENT

IN-STOCK

BACCARAT CARDS with small index are manufactured specifically for squeeze games. Cost effective decks reduce operating costs for single use card decks. With no minimum quantity commitments for our generic decks, gaming operators are free to source any number of deck quantity to suit their levels of Baccarat gameplay. We offer a choice of popular back colours with secure cello-wrapped packaging.

BENEFITS:

- Reduce costs of operating squeeze baccarat
- Improve security from single use decks
- Small index for player peeking
- Immediate stock availability

FEATURES:

- Stock availability
- Logo options available
- Convenient 8-deck mini boxes

CARD SHREDDER

EFFICIENT DESTRUCTION

HIGH SPEED

IN STOCK

CARD SHREDDER Purpose-built for casino back room, high-speed casino card shredding machine destroys up-to 18 decks per minute, ensuring all used cards are thoroughly disposed of while saving valuable hours in the process.

Automatic card feeding technology creates continuous card shredding process and removes the need for manual feed of each card. Twin towers double the loading capacity of card feeding storage, achieving high cards-per-minute shredding efficiency. Powerful 240-watt motor and high-durability blades ensure product lifecycle for many years!

BENEFITS:

- Automated, high-speed playing card shredding
- Designed for continuous professional application
- Shreds paper & 100% plastic cards
- Twin feeding towers double the feeding capacity
- High durability cutting blades
- Spares & wear parts availability, technical support

TECHNICAL SPECIFICATIONS:

- Dimensions: L 36cm x H 32cm x D 20cm
- Net weight: 19.15kg, Gross weight 23kg
- Power consumption 240 watt (max), 220VAC - 50 Hz

ELECTRONIC PRODUCTS

SAFE-SHOE™ prevents dealer error by eliminating possibility to overdraw or under draw cards. A stop engages on the shoe once the last card of the round is pulled to eliminate overdrawing, while audible and visible alarms are triggered when cards are underdrawn.

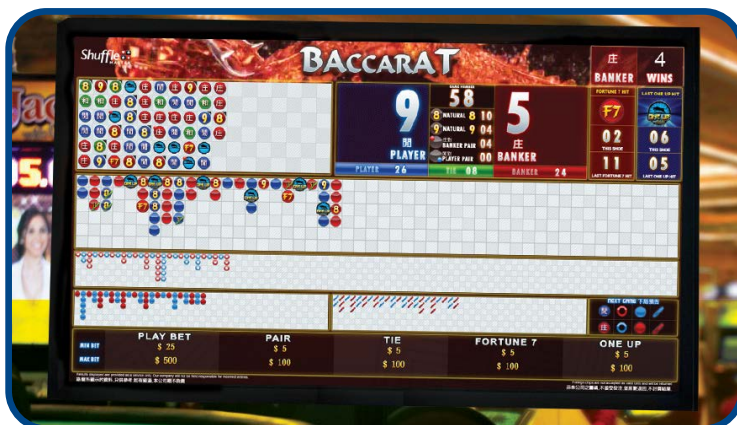

Proven technology eliminates card swapping, dealer/player collusion & game manipulation, requiring no special markings, barcodes or RFID chipping.

SAFE-SHOE™ FOR BACCARAT

BACCARAT SECURITY

i-SCORE PLUS™ DISPLAY

PREMIUM GRAPHICS

MDX™ multi-deck shuffler has capacity to shuffle 1 to 10 decks. Eliminate edge sorting risks by randomly rotating feeder elevator 180 degrees throughout the shuffle, to remove the chance of sorting the card edges in a predetermined way.

Featuring integrated wheel technology, faster shuffling, height adjustable mobile cart and a convenient horizontal output, **MDX™** is redefining the standard for multi-deck shuffling.

i-SCORE PLUS features 24-inch Full-HD display making it even easier to attract players and display current game results and trends.

The baccarat display is designed to work seamlessly with electronic SAFE-SHOE™ to provide instantaneous baccarat game event updates without requiring manual input by the dealer.

INNOVATIVE BLACKJACK

SHUFFLESTAR

BLACKJACK SHUFFLE MACHINE

offers ultimate deck integrity and uninterrupted play, without downtime for loading a shoe or shuffling cards. The sleek, flush mount, low profile of this revolutionary flat dealing shoe improves lines of sight and effortlessly delivers up to three cards per second.

Featuring real-time card inventory, and misfeed detection to prevent loading jams, this ergonomic shuffler is sure to improve casino operations and game play.

BLACKJACK DISPLAY

offers historic trends for dealer card scores. Main road shows previous dealer results lined-up in horizontal rows. Players anticipate future dealer card scores based on their vision of the past game results. Displays total statistics of the shoe or shuffler gaming session.

Flexible interface delivers fast-switching graphics for multiple game types, with various colour themes, casino logo, min/max & bet limits.

NEW BLACKJACK GAME

MAKE A U-TURN on traditional blackjack rules. Casino dealer has to deal his cards first, letting blackjack players make decisions later!

Players benefit from knowing in advance how many cards dealer will be playing with, and can anticipate dealer's final point total based on the number of cards drawn to dealer.

LIVE BROADCAST PLAYING CARDS & ACCESSORIES

BARCODE playing card decks are manufactured from premium materials, fully certified and tested for seamless compatibility with barcode scanners.

PROVEN for reliable scanning across numerous online studios, these cards ensure accuracy and efficiency in live dealer casino environments.

CUSTOMIZE your card face design with unique barcodes, or opt for specialized custom decks tailored for non-traditional card games, offering limitless possibilities for bespoke gaming solutions.

SAMPLE decks are available for testing and studio setup, ensuring seamless integration with your system.
